PRESIDENTS REPORT

Well, seems like forever since I have written one of these, it's been a very exciting few months for SEAC. With all good things comes not so good!!!

Unfortunately some light fingered so and so decided, for whatever reason, they wanted to enter our premises and take some items home with them. An item of club memorabilia was among the things they took, we are very lucky the Police were fast acting and managed to get majority of our stuff back within 3 days. A few other items of expense have not been so lucky, but easily replaced.

A reminder that the club is a CAMS affiliated club and as so, we are bound by their social media policy. If you have issues from an event, deal with it the right way please, which is to talk to the Director or Stewards. 100% of event staff are volunteers and don't need the dramas. Same goes for other competitors, please respect each other so we can all have fun and come back and do it all again. The members of the club and the committee will not tolerate any actions which bring the club or sport into disrepute what so ever.

We had a few cool events in the last couple of months. The double header Khanacross and Autocross were well supported and looked like fun. Poely and Adam's TRE...What an event! Well executed, great roads, with a couple of bumps to launch us half way to Mars. Rallycross was the best fun and the biggest smiles I've seen on peoples faces for a very long time. The track surface, produced by Paul Heenan, was bloody perfect and a credit to Paul and his hard work. I think this style of side-by-side action will become very popular. John Whitehead, along with his very organised wife Judith made the most of the opportunity handed to them with the Mt Gambier Show. A great range of cars on display and an even better display of cars and drivers on the main arena Saturday night. You deserve a big pat on the back. Poely's Autocross on the blackest track ever seen at SEAC was fastttt, and cool, without a single incident. Well done to the drivers who drove very well for the day.

The Hillclimb is less than 3 weeks away, still need scrutineers for Thursday and Friday nights, camera operators, and help setting up and packing up. Being part of the biggest event if the year, which produces the funds to keep the club progressing is very rewarding and the fun had while doing the job is also pleasing. Any help at all would be appreciated.

Not long until our AGM, lots of positions to be filled, if you don't like the direction the club is going or simply think you can add something positive to the running of the club, the first Friday in December is your time to shine! My 2 year term is up, I have a couple of projects I would like to see happen and I would love to do 2 more years and keep giving 100% to the club and members I love, including keeping the Legends Hillclimb a priority. At the end of the day, you, the members choose the committee and I welcome anyone to run for the positions and add some flair to this wonderful club.

Here's to a great Hillclimb on SLICK tyres and some more gravel skids on RALLY tyres.

Cheers all, Trump.

Efforts are underway to get the Valley Lakes set up for our club's biggest event of the year.
All hands make light work,
so if you can help out over the next week

South West Stages will definitely run next year. It will run on the 27th April, 2019. Its very common knowledge that we lost support from Victoria in 2018. After some long discussions we have decided to press on and continue to run the event as a stand alone SA Rally Championship round.

The event will still be ran out of Heywood in Sth West Victoria, and will be pacenoted.

We have found some new stages that are even better than last year and kept some of the original roads, the service park will be in the same spot.

A new addition will be the Super Special Stage on the Friday night 26th April. Running in twilight then under lights, it will be a great opening to the new season.

Because of the ANZAC day on Thursday competitors will be able to travel down the day before, pacenote Friday and race in the daylight on Saturday, before some after event festivities that are to be announced later.

The event will be split into 2 levels, State and Clubman, State will be noted and clubman to run off the roadbook.

Another addition will be the " Power Stage" that will have some extra encouragement added to it to make the crews try that little bit harder.

Regards,

Nathan Lowe
